US Department of Agriculture
Rural Utilities Service

Hello,

I am writing in support of the USDA granting MontanaSky West LLC, in partnership with Montana West LLC, MontanaSky Networks Inc., and Ronan Telephones' application for an USDA Rural Utility Service Fund loan for telecommunications infrastructure for our community.

In addition, our support for their USDA Community Connect application for building fiber optic facilities serving our community and other communities in Northwest Montana, to whom we currently have poor connections with.

The granting of these funds will be a win-win for all concerned. Citizens, government, and businesses (big and small).

The results of this USDA RUS program will provide us better tools to develop jobs and attract entities willing to better the economic and social base for our community.

Please register this as our support for these projects.

Sincerely,
